TRM Compulsory Module – Canvas Discussion Activities

Completion Evidence — Jacob Lacy

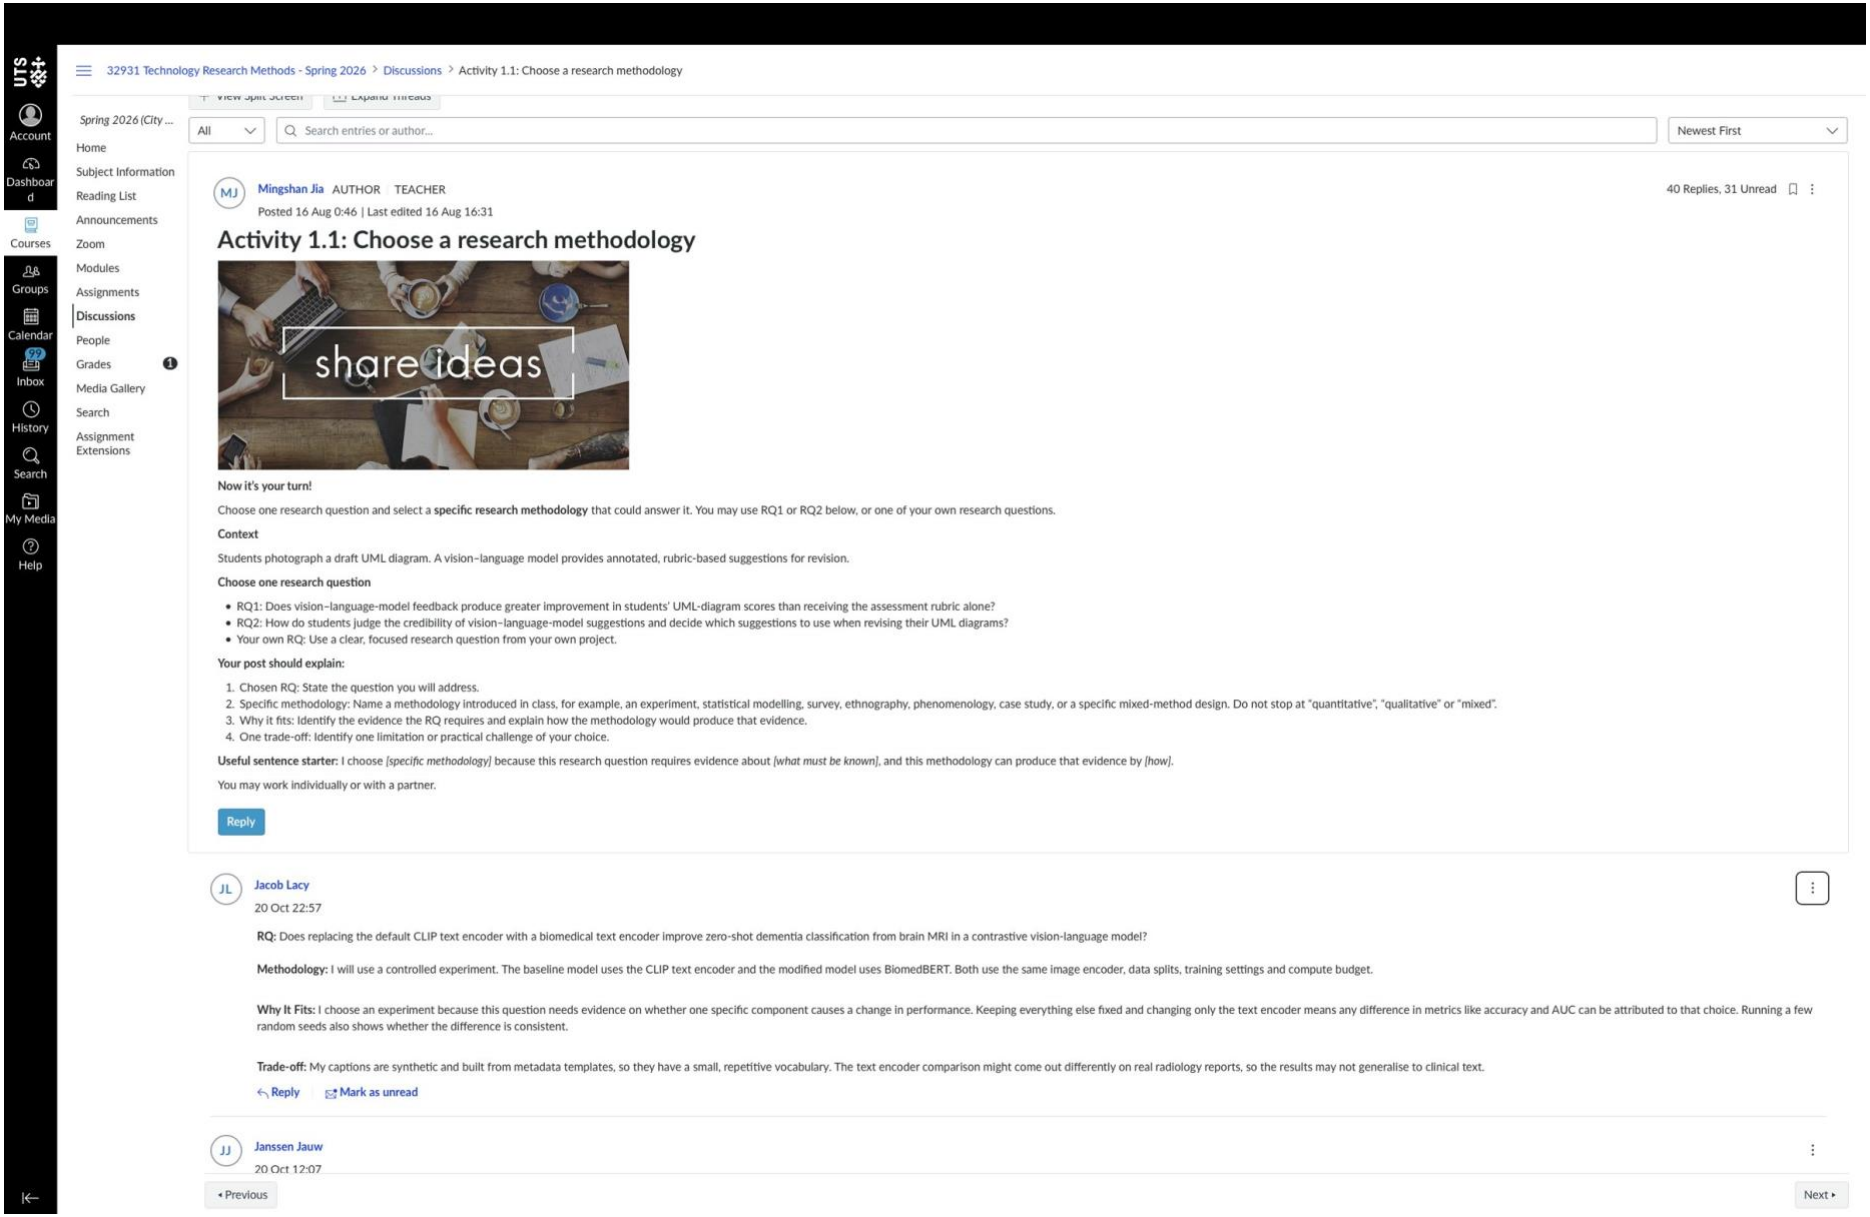

TRM 1B - Artefact A1

Contents

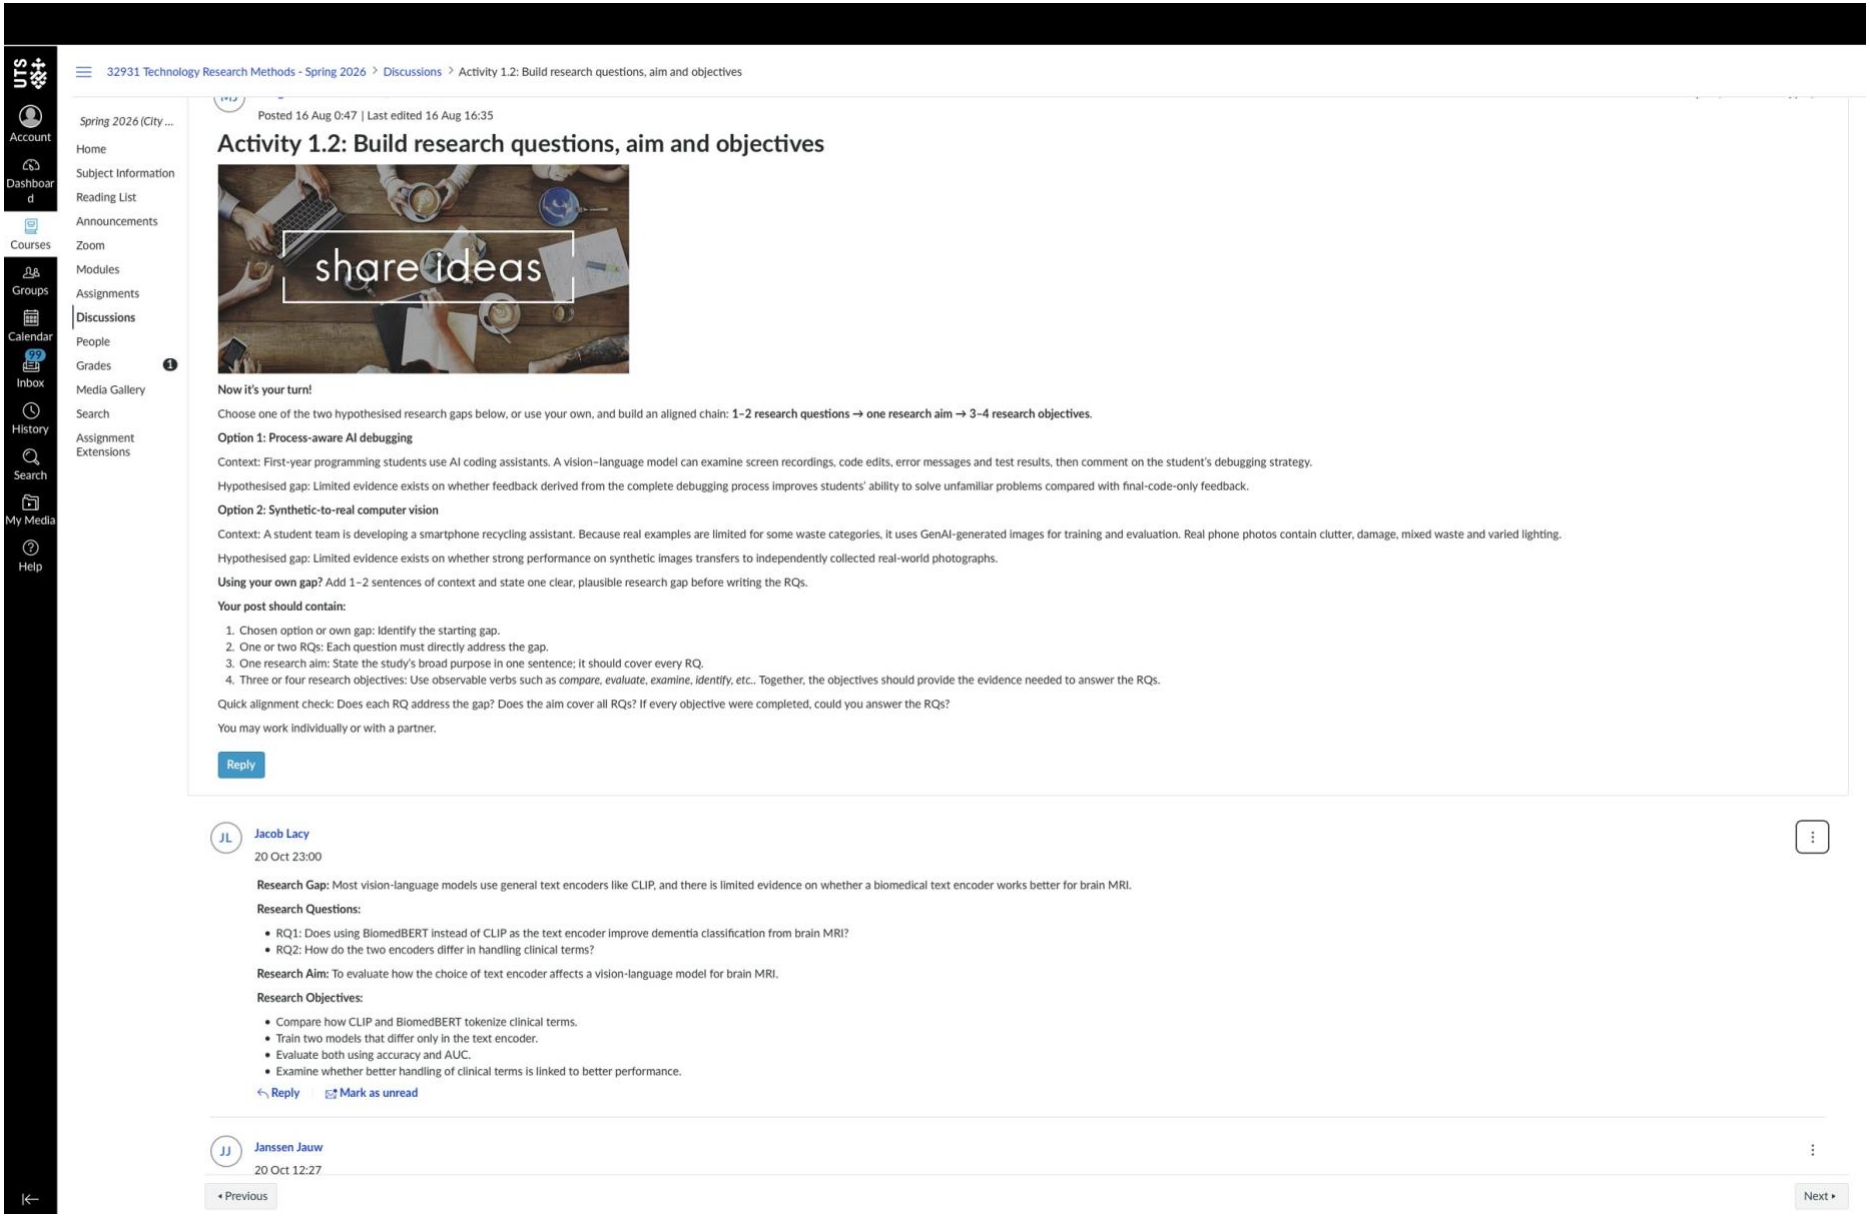

- Activity 1.1 – Choose a Research Methodology
- Activity 1.2 – Build Research Questions, Aim and Objectives
- Activity 1.3 – Design an Experiment
- Activity 2.1 – Reflection on Misleading Statistics
- Activity 2.2 – Analyse and Plan Your Introduction
- Activity 2.3 – Analyse and Plan Your Methodology
- Activity 3.1 – Build and Test a Research Skill

My responses to the seven discussion activities from Intensive Modules 1–3. I wrote them during the module (27 July – 20 August 2026) and posted them to Canvas on 20 October 2026, updating them with results from my tokenizer analysis (Artefact A8) when posting. They reflect my intermediate project direction (dementia MRI, comparing CLIP and BiomedBERT text encoders); Artefact A2, my honours draft, shows the same frameworks applied to my final topic.

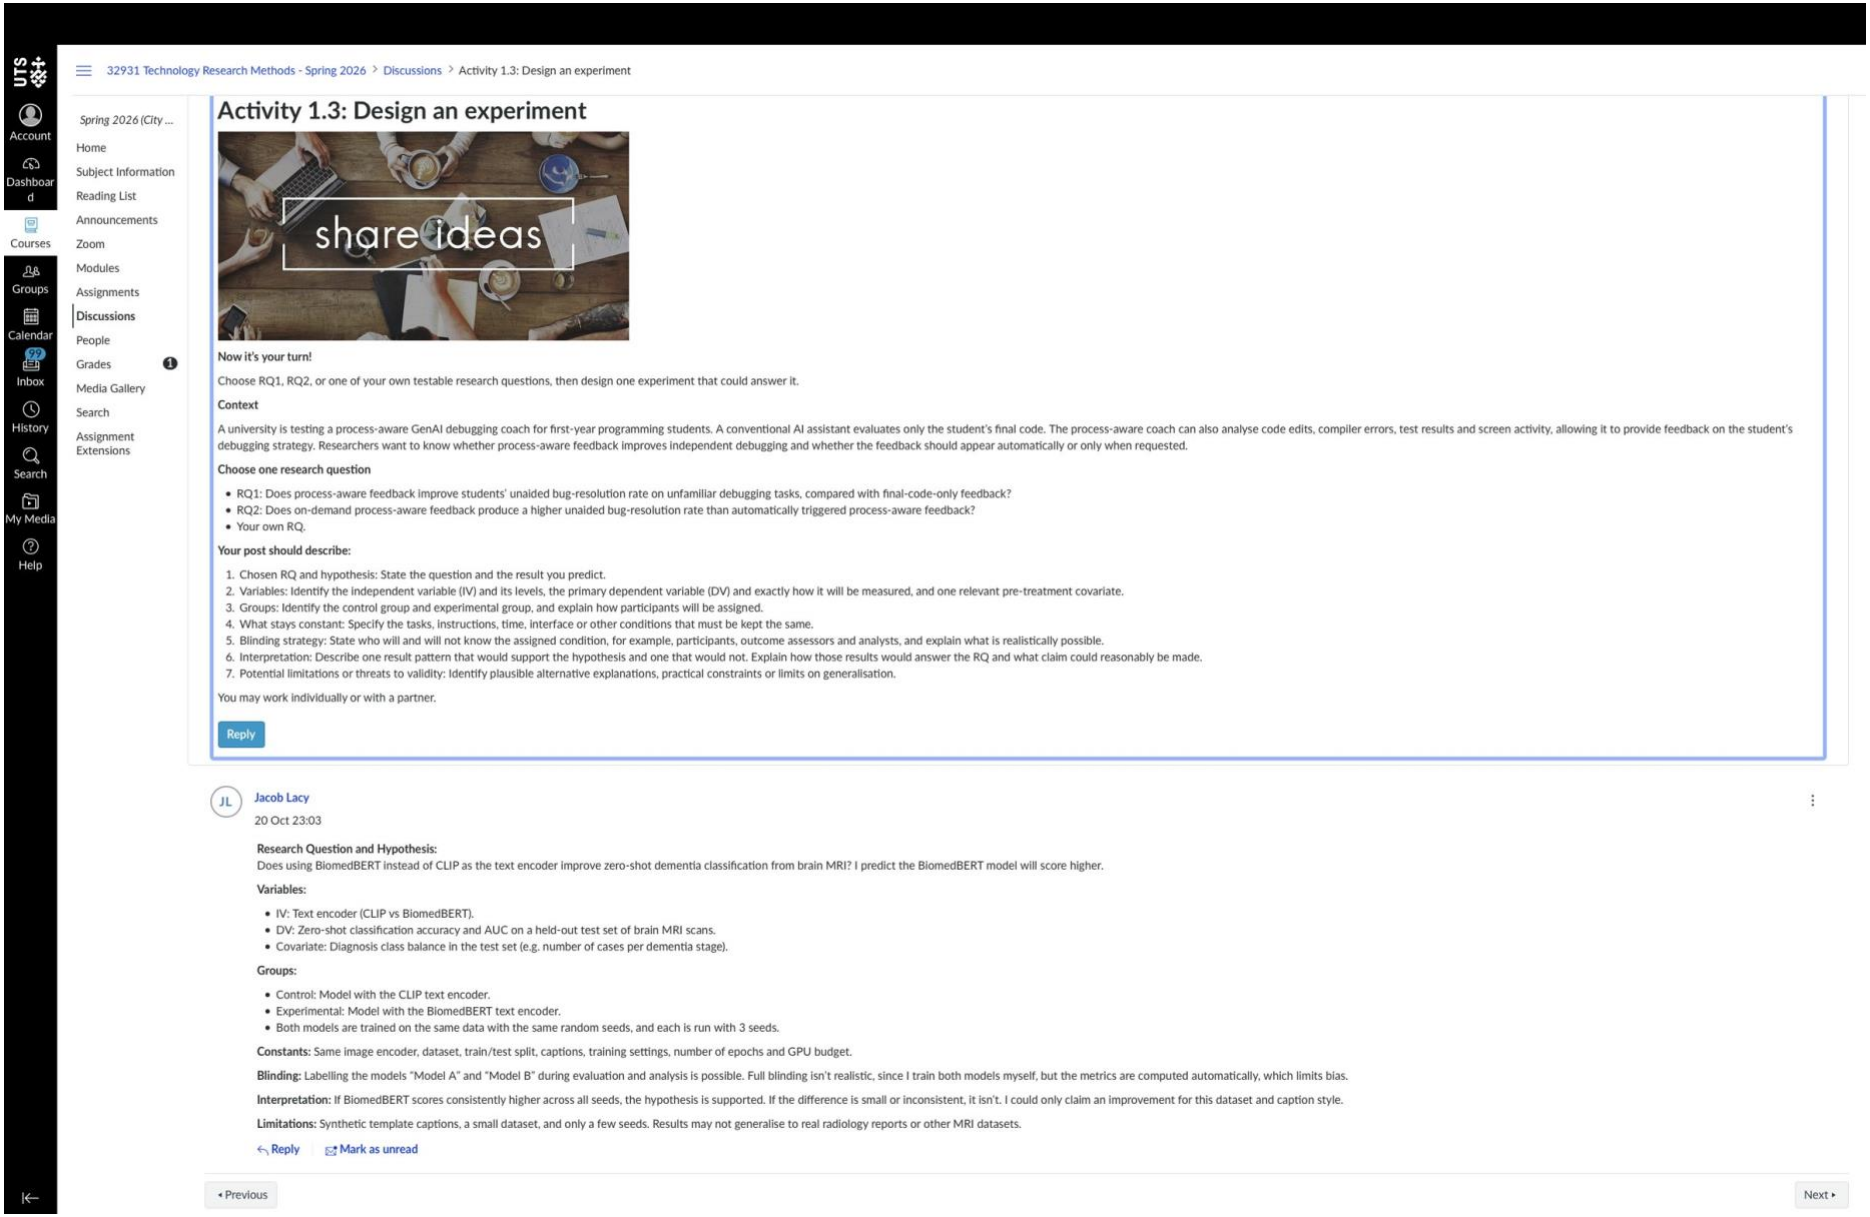

Activity 1.1 – Choose a Research Methodology

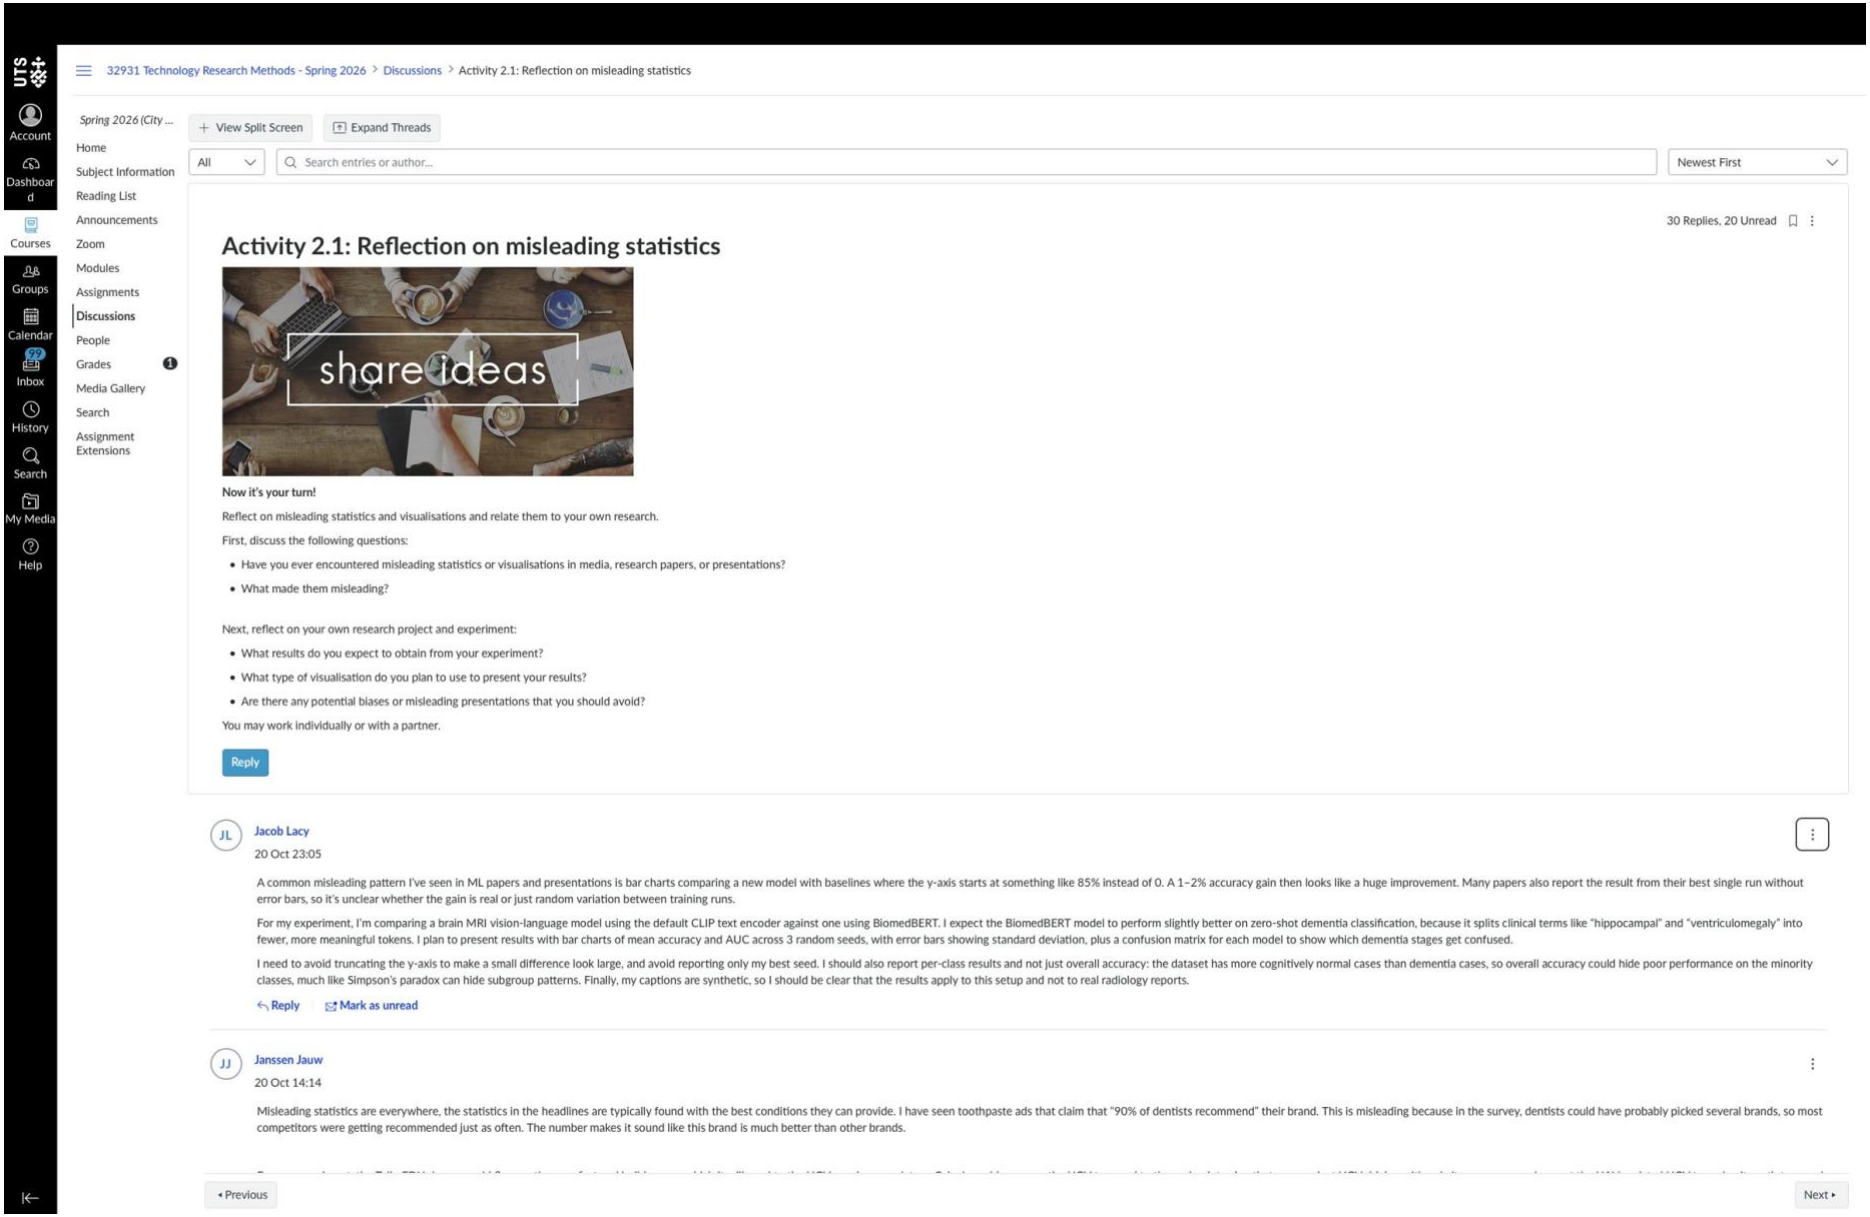

Activity 1.2 – Build Research Questions, Aim and Objectives

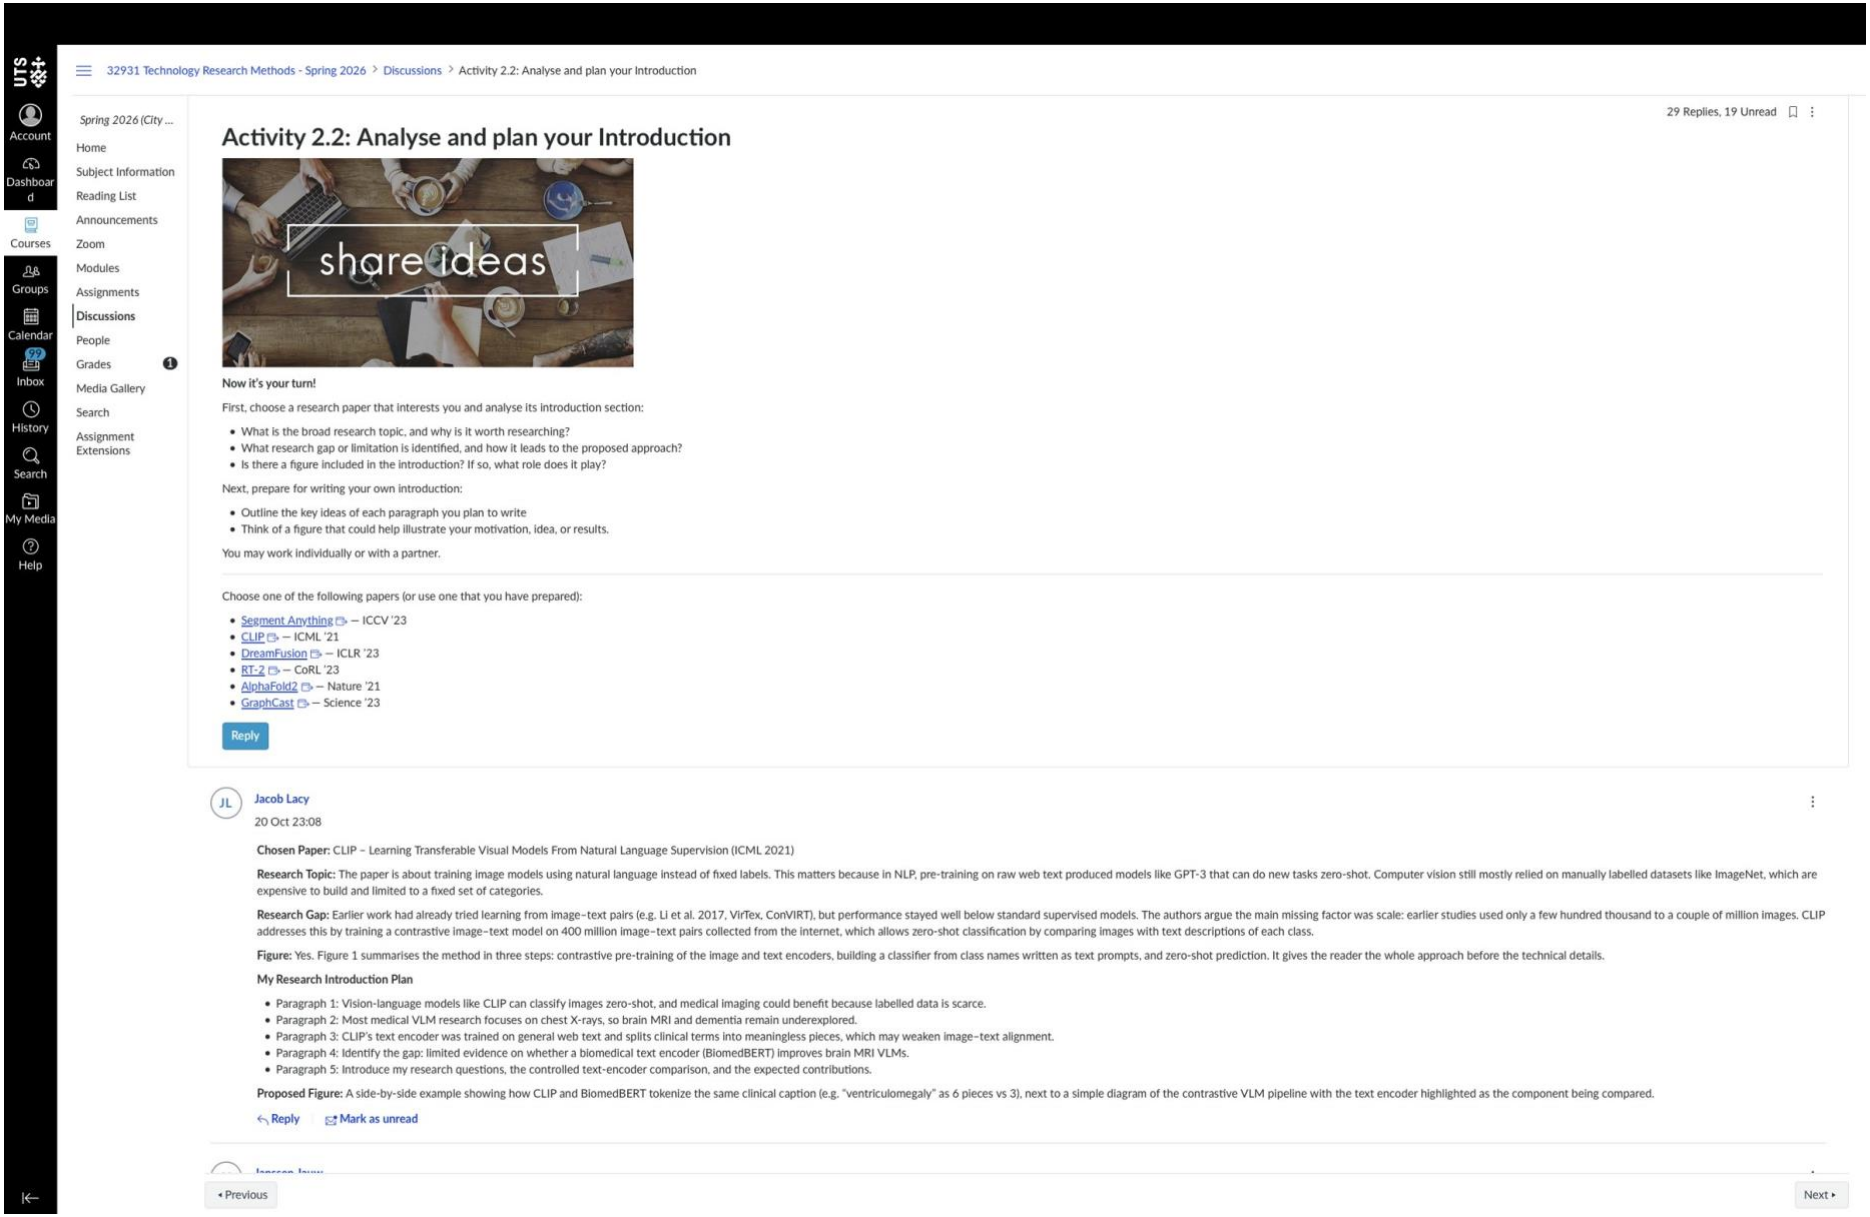

Activity 1.3 – Design an Experiment

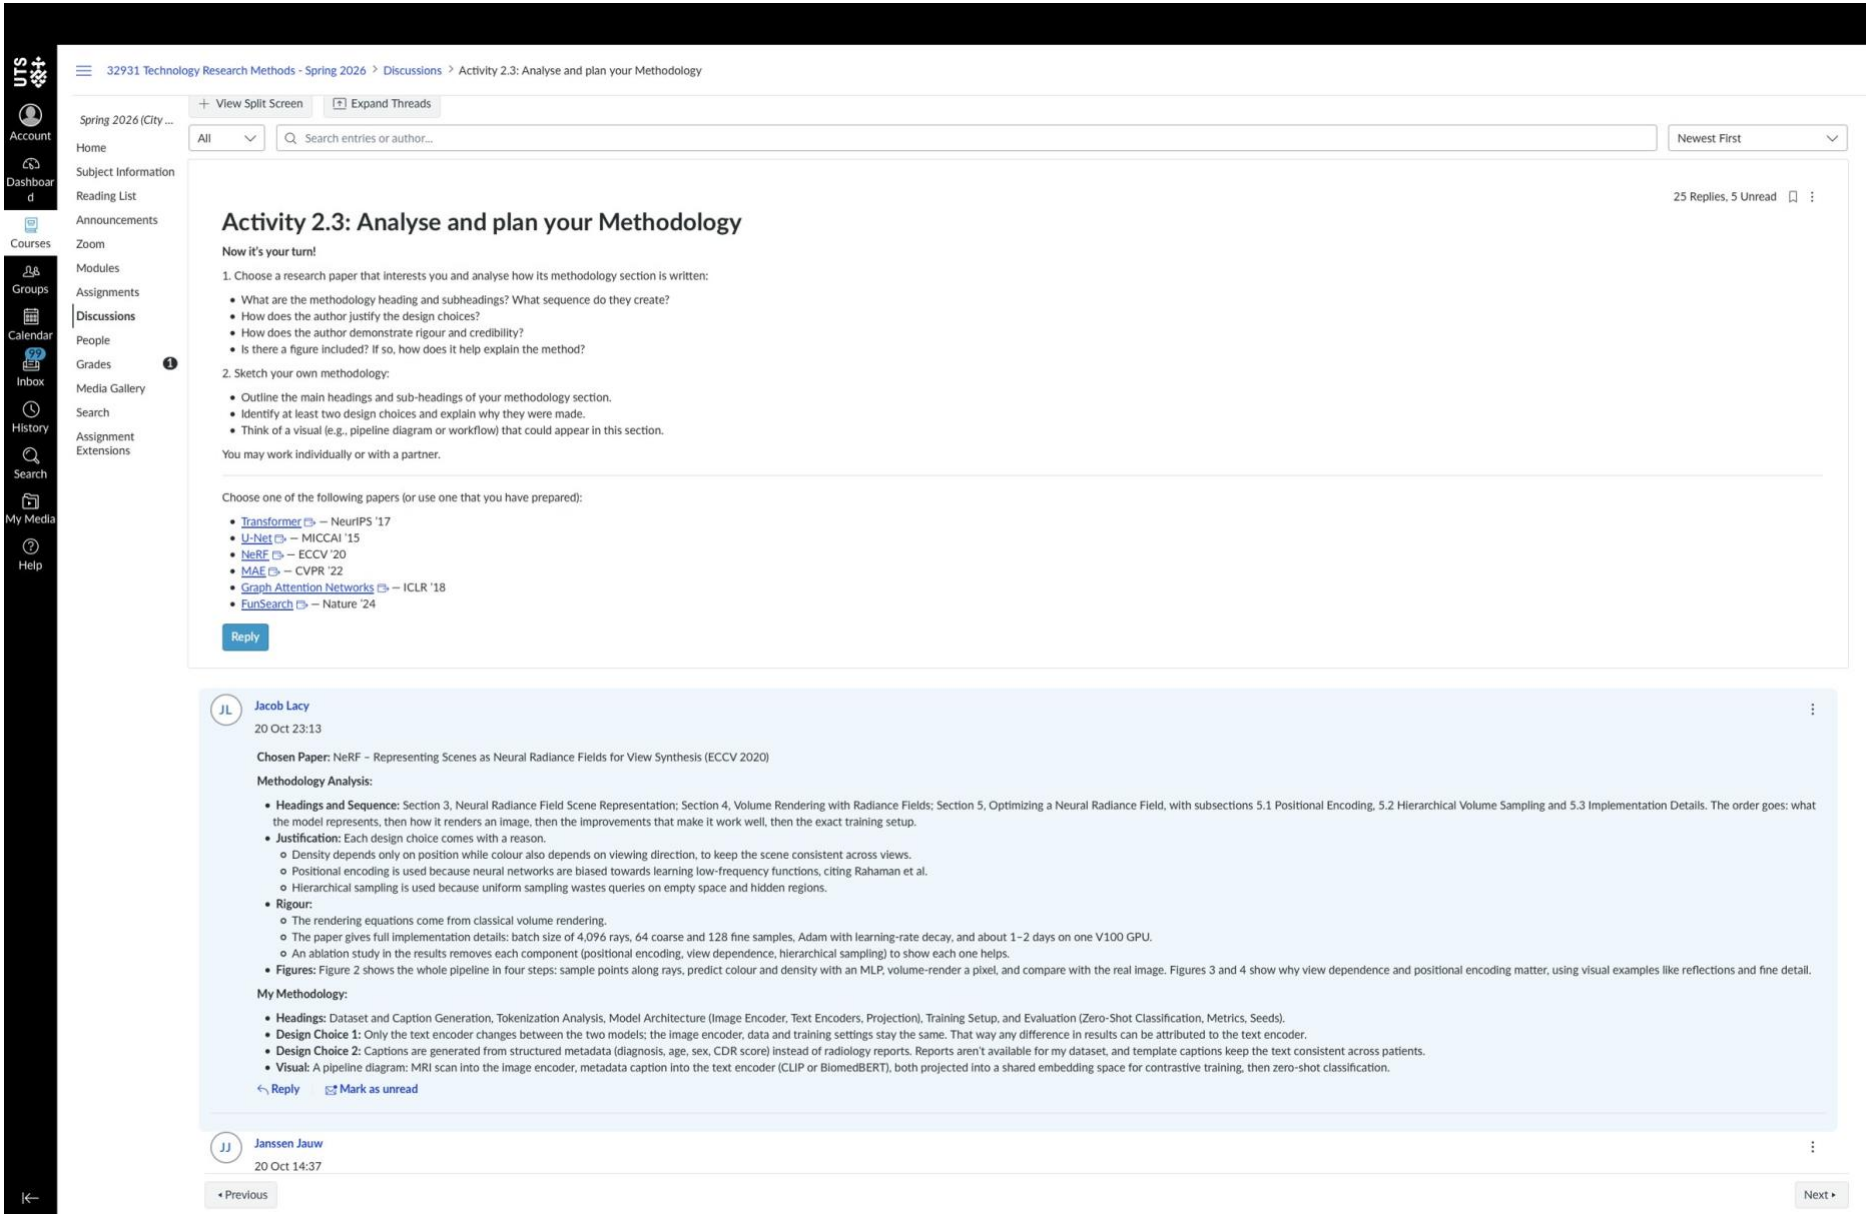

Activity 2.1 – Reflection on Misleading Statistics

Activity 2.2 – Analyse and Plan Your Introduction

Activity 2.3 – Analyse and Plan Your Methodology

Activity 3.1 – Build and Test a Research Skill
